

DID YOU KNOW?

- 1 in 11 adults have diabetes
- 46.5% of adults with diabetes are undiagnosed
- By 2040 1 adult in 10 will have diabetes
- 12% of global health expenditure is spent on diabetes
- Every 6 seconds a person dies from diabetes and diabetes related causes

(Ref: Intl Diabetes Foundation, IDF Diabetes Atlas, 7th edn., Brussels Belgium; Intl. Diabetes Federation, 2015. (<http://www.diabetesatlas.org>))

WHAT CAN YOU DO?

Scientific and medical evidence has made it clear a healthy diet and exercise is the first line of defense.

IS THAT ALL? NO!!

Supplements can play a role in maintaining and/or improving one's health through they never replace a healthy diet.

INTRODUCING DIABEXALL!

DIABEXALL is a patented supplement developed and clinically proven over 10 years of research and testing. It works in several ways to promote pancreas health by:

- activating the pancreas
- re-establishing the ability of the body cells to utilize blood glucose more efficiently
- regulating the natural level of insulin in the body

PRICE: \$ 19.00 per bottle (90 softgels)
